A new CD-ROM based on Just-In-Time Lecture (JITL) technology is available from TLC.

Dr. Greenbrier Almond, has several years experience in treating and counseling veterans and other sufferers of PTSD. His kind, gentle manner will put you at ease as he guides you through the clinical and personal findings dealing with this disorder and offers several helpful solutions and techniques that enable people to live fuller, happier lives. Russell Lake shares his experiences as a World War II combat veteran, including his memories of the Battle of the Bulge and serves as a case study in PTSD. Johnny Bragg is a veteran of the Vietnam War and a current Team Leader at the Veterans Outreach Center in Clarksburg, West Virginia, providing counseling and services to West Virginian veterans from a variety of wars. He notes that though the conflicts and situations for each veteran is unique, their responses are not and therefore, they are members of a brotherhood that few can understand and his experiences allow him to connect with that special group

This presentation has been granted two hours of teaching credit by the American Academy of Family Physicians.

The PTSD JITL CD is available for purchase using our VirtueMart Virtual Store.
